

Bureau Fraud Arena

Leaderboard & Point System

Overview

The Fraud Arena runs three independent games. Each game has its own leaderboard (Today and All Days) plus a Combined view that sums a player's best score across all three. Points are recorded at the end of each run - the highest single-run score per game per player is counted.

Game	Maximum Points	Comment	Leaderboard Key
Spot the Fraud	100 pts		spot_the_fraud
Spoof the System	100 pts	100 pts per evey level	spoof_the_system
Fraud Detective	100 pts		fraud_detective
Combined (All)	300 pts		combined

1. Spot the Fraud

Players climb 10 levels of increasing difficulty. Every correct answer banks points. A wrong answer or timeout ends the run - but all points banked up to that moment are kept and recorded.

Level-by-Level Scoring

Level	Format	Options	Select	Timer	Points	Near-Miss
1	MCQ – single answer	4	1	20s	4 pts	-
2	MCQ – single answer	4	1	20s	5 pts	-
3	Spot the Fake (2 images)	2	1	25s	6 pts	-
4	MCQ – single answer	4	1	25s	7 pts	-
5	★ Level Up – MCQ single	5	1	35s	8 pts	-
6	MCQ – multi (select 2)	6	2	35s	10 pts	5 pts
7	Spot the Fake grid (6 images)	6	2	35s	12 pts	6 pts
8	★ Level Up – MCQ – multi (select 3)	6	3	40s	14 pts	7 pts
9	Spot the Fake grid (8 images)	8	3	40s	16 pts	8 pts
10	MCQ multi (sel 3)	8	3	40s	18 pts	9 pts

Scoring Rules

- Correct answer → full points for that level.
- Wrong answer → run ends immediately (0 pts for that level). All previously banked points are recorded.
- Timeout → run ends immediately. All previously banked points are recorded.
- Near-Miss (multi-select only) → exactly one wrong selection in the group. Earns half the level's points and ends the run.

- Skip → available at levels. Skipping banks 0 pts for that level and advances to the next.

2. Spoof the System

Players attempt to fool Bureau's synthetic-image detector across three levels of increasing detector sensitivity. Points are earned by beating each level. Players can bank their points and walk away after Level 1 or 2, or risk continuing for a higher score.

Points & Prize Draw Eligibility

Level	Outcome	Points Awarded	Prize Draw Eligibility	Tier
1	Beat Level 1	17 pts	-	Achiever
2	Beat Level 2	33 pts	TBD	Achiever
3	Beat Level 3	50 pts	TBD	Achiever
-	Caught (nothing banked)	0 pts	-	-

Scoring Rules

- Beating Level 1 banks 17 points.
- Beating Level 2 banks 33 points (added to Level 1 score).
- Beating Level 3 banks 50 points (added to Level 2 score).
- Being caught with nothing banked = 0 points recorded.
- If the detector catches the player, the run ends. Previously banked points (from a completed earlier level) are kept.

Prize Draws

- TBD

3. Fraud Detective

Players investigate five financial crime graph cases and identify the fraudulent entities (mule chains, rings, self-dealing networks). After the five cases, a bonus trivia round awards additional points.

Point Breakdown

Component	Detail	Points	Timer
Main Cases	5 graph investigation cases	15 pts each	1 minute
Case Total	All 5 cases correct	75 pts	
Bonus Point	3rd Level cleared	10 pts	
Bonus Point	5th Level cleared	15 pts	
Maximum	Cases + Bonus	100 pts	

Scoring Rules

- Each case is worth 15 points for a correct accusation.
- 10 and 15 points are awarded for 3rd and 5th round clear respectively
- One wrong accusation ends that specific case - banked points from previous cases carry forward.
- Total = Case Points + Bonus Points, max 100.

4. Leaderboard Views

The leaderboard is accessible from the main Arena screen. It refreshes every 10 seconds automatically.

Scope Filters

- Today - scores recorded during the current calendar day at the booth.
- All Days - cumulative scores across the entire event.

Game Filters

- All - Combined score (sum of best runs across all three games per player).
- Spot - Spot the Fraud only.
- Spoof - Spoof the System only.
- Detect - Fraud Detective only.

Display

- Top 10 players shown per view.
- A player's own row is pinned at the bottom if they fall outside the top 10.
- Rank 1 is highlighted in violet. Top 3 scores are shown in violet numerals.
